Enterprise Pre-Screening Survey Application

Screening is needed during COVID-19 lockdown and afterward to contain the disease and track infected. ePass works in conjunction with the eClear platform to give operators a complete pre-screening solution.

Organizations need to protect their employees, visitors, and themselves, for example:

- Employee screening for work clearance
 - Screening of visitors to facilities (offices, hospitals)
 - Hotel and restaurant guests screening
 - Social, entertainment event participants screening
 - Screening of drivers crossing state or city boundaries
- Application Highlights:**
- Easy to use, highly customizable application for screening of individuals for COVID-19 symptoms
 - Customizable for different uses: employee screening, visitor screening, other
 - Customizable screening questions/symptoms
 - Can be used for self-screening and screening of others
 - Results of screening available on the spot or by email
 - Configurable templates depending of the usage context
 - Optionally integrates with HR, EHR, ERP, other systems
 - Provides reporting and analytics
 - Can integrate with devices – barcode reader, thermometers, camera, etc
