

TEAMCLEAR

an eConnect Product

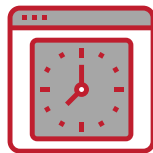

1-STEP CLOCK-IN & TEMPERATURE CHECK

Because we know how important it is for you to keep your business safe for your employees, customers, and business partners.

Temperature Screening

One of the best ways to mitigate the spread of viruses is to check your team members for elevated temperatures

Contactless Clock-in/out

Traditional time-clocks are unsanitary for your team members. Face Match is clean and reliable

Seamless Integration

TeamClear can integrate with your existing time & attendance system or be used as a stand-alone time clock application

We help keep our clients safe, secure, efficient and profitable

eConnect has been in business since 2009 and has over 350 customers. Along with a number of important patents issued for the eConnect technology, the company has won many awards for innovation, design and excellence. eConnect continues to WOW customers with unparalleled service from a US based team, combined with a mature product suite providing valuable insights into our customers operations.

**Older time-clocks have
unhygienic surfaces and
contribute to the spread of
bacteria and viruses**

eClear Camera & Thermal Scanner

TEMP: 97.63 °F

2020/05/04

Successed

TeamClear is a software application combined with the eClear Camera, giving operators the ability to:

- Check staff temperatures
- Use Face Match to clock team members in & out
- Keep it clean and avoid the spreading of germs
- Prevent buddy punching
- Seamlessly integrate with digital time & attendance systems
- Have the peace of mind that the best practices for safety are being implemented
