

Integrate your eClear with your Time Keeping System

Temperature Screening

One of the best ways to mitigate the spread of viruses is to check your team members for elevated temperatures

Contactless Clock-in/out

Traditional time-clocks are unsanitary for your team members. Face Match is clean and reliable

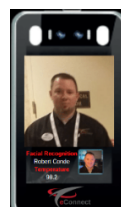

Seamless Integration

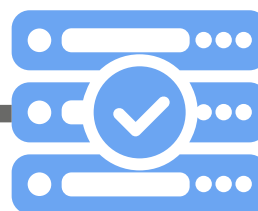

TeamClear can integrate with your existing time & attendance system or be used as a stand-alone time clock application

Works with digital time keeping systems that have a network connection.
